DECLARATION OF HALEY HARGIS

I, Haley Hargis, being duly sworn, over the age of majority, and of sound mind, do depose and state as follows:

1. My name is Haley Hargis. I am the personal representative of the estate of my father, Jonathan Mark Hargis, who died on March 31, 2021. Unless otherwise specified, the matters set forth herein are of my own personal knowledge.

2. On or around April 1, 2021, I learned that my father, Jonathan Mark Hargis, had been hospitalized in Nashville, Tennessee, and had been declared brain dead.

3. On or around April 2, 2021, I traveled from my home in Hamilton, Ohio, to Nashville, Tennessee, to see my father at Southern Hills Medical Center. With me were my brother, Jerred Matthew Hargis; my sister, Lacey Rose Hargis; and my mother, Tina Pardon.

4. Once we arrived at the hospital, I learned from the staff there that my father had been taken to the Overton County Jail before his hospitalization. I called the Overton County Jail and spoke with its jail administrator, Defendant Amanda Poore, and set up a time to meet with her and Overton County Sheriff John Garrett to discuss what had happened to my father.

5. While at Southern Hills Medical Center, no one discussed with me the cause of my father's death or how he died. However, I learned that there was a pending investigation regarding my father's death and was given contact information for a special agent named Elizabeth Williams with the Tennessee Bureau of Investigation (TBI).

6. On or around April 2, 2021, I authorized the release of my father's body such that hospital staff could remove him from the ventilator and harvest his organs, and then my family and I returned to Ohio.

7. On or around April 5, 2021, I traveled to the Overton County Sheriff's Office in Livingston, Tennessee, to meet with Jail Administrator Poore and Sheriff Garrett. With me were Amanda Field, my brother Jerred's girlfriend; and my mother, Tina Pardon.

8. During the meeting, Sheriff Garrett told me that my father had been picked up by law enforcement on the side of the road for acting strangely; that my father had requested to be taken to a mental health facility, and local police had taken him to the nearby hospital for that purpose; that there was not yet any availability at a mental health facility; that my father was taken to the jail to await availability at a facility because it is the law in Tennessee that law enforcement cannot release someone back into the public if that person is mentally unstable; that while in jail, my father behaved erratically and attempted to hurt himself; and, that corrections officers tried to restrain him so that he could be given a shot to calm him down.

9. For her part, Jail Administrator Poore told me that my father had asked for a Mountain Dew and a peanut butter jelly sandwich at some point, and that she had gotten those items for him.

10. Both Sheriff Garrett and Jail Administrator Poore told me that corrections officers at the Overton County Jail were trying to help my father; that, before their jail nurse could even administer a shot to help calm him, my father had become unresponsive; that the corrections officers tried to help him through CPR and calling EMS to take him to the hospital; that my father had died of a heart attack; and that, because there was a pending investigation by the TBI, I should follow up with that agency for more information.

11. After the meeting, I spoke briefly with a corrections officer in the Overton County Jail, who gave me my father's clothes that he had been wearing while in custody, and then returned to Ohio.

12. Later, in or around April 2021, I was in contact with TBI special agent Elizabeth Williams, who told me that the autopsy had not yet been completed and that, once it was completed, I would receive a copy of the report in the mail within eight to twelve weeks.

13. In telling me why the autopsy report had not yet been completed, Ms. Williams indicated that the medical examiner was still reviewing video footage from the Overton County Sheriff's Office.

14. At some point thereafter, in the summer of 2021, Ms. Williams ceased communicating with me. She stopped answering my phone calls, and the TBI generally stopped returning my phone calls.

15. I never received a copy of the autopsy report as Ms. Williams said I would.

16. In or around August 2021, I retained the law firm Lowe Yeager & Brown PLLC in Knoxville, Tennessee, to represent me in investigating the circumstances surrounding my father's death.

17. Thereafter, my attorneys obtained documents and video footage from Overton County through public records requests, attempted to contact TBI agents to ascertain the status of the investigation into my father's death, and spoken with the Office of the State Chief Medical Examiner about obtaining a copy of the autopsy report.

18. On November 22, 2021, I was shocked to learn for the first time that the autopsy report showed that the medical examiner determined the cause of my father's death was asphyxia and the manner of his death is a homicide.

19. I have since been provided a copy of "Exhibit C" to the Responses to Plaintiff's Requests for Production of Documents dated April 12, 2023, by Defendants Overton County, Tennessee; Melissa Barnes; Amanda Poore; Donald Shaver; Dustin Pettit; Amber Beaty; David Nelson; Samuel Webb; Christena Sakkinen; Melody Crawford; Brittany Sidwell; and Michael Tharp. A copy of that exhibit is attached hereto as **Exhibit 1**.

20. The foregoing exhibit was produced in response to my request for "any internal Overton County, Tennessee and/or Overton County Sheriff's Department documents, such as reports, memoranda, emails, messages, notes, and any other such similar records, regarding Jonathan Mark Hargis and/or the instant litigation within the last three (3) years." *See Ex. 1.*

21. Included in the foregoing exhibit are what appear to be a Report to Corporate Risk Management of Patient Inmate Death; Progress Notes by the Overton County Jail nurse, Darlene Grimsley, of Southern Health Partners; and certain medical records from Livingston Regional Hospital concerning my father on March 29, 2021. It is my understanding from discovery in this

litigation that Overton County Sheriff's Office had an agreement with Southern Health Partners for the provision of nursing services at the jail.

22. The last entry of the jail nurse's Progress Notes reflects the following:

4/4/21	Amanda Poore Adm instructed SN that Mr. Hargis family came by jail and stated autopsy showed he had heart attack ----- D. Grimsley LPN
--------	---

23. The foregoing statement, documented in the Progress Notes, is false. Neither I nor anyone present with me when I visited the Overton County Jail to meet with Sheriff Garrett and Jail Administrator Poore ever told anyone that my father's autopsy showed he had a heart attack.

24. It was Sheriff Garrett and Jail Administrator Poore who stated that my father had died of a heart attack during the meeting on or around April 4, 2021.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.
